

WEEKLY LINE UP – Wootton

From Tiny Acorns Mighty Oaks Grow Within the Love of God

Monday 5th October
Term 1 Week 6

Maths

In Maths this week, we will be trying a new year 1 and 2 mixed plan, so both year groups will be completing the new unit of addition and subtraction.

We will start the week by looking at a part whole model. We will learn how it can show us how two parts can add together to make the whole number. Firstly, we will use objects to practise understanding the concept of this, before using it to try and work in a more logical way to find all possible ways to make a certain number. Then we will use our part whole model to help us practise our addition number sentences, before finishing the week with recalling our number facts to ten. The year twos, will also be exploring part whole models with more than two parts.

What can you do at home?

Year ones- Have a go at exploring a part whole model. Choose a number and find ways to make it. An example of a PW model is under our ‘Useful Links’ tab on the website.

Year twos- As above, but can you make all possible ways using a logical sequence, e.g. $0+5=5$, $1+4=5$, $2+3=5$. Don’t forget Times Table Rockstars.

English

In English this week, we will be continuing with our story writing.

We will be continuing to use our plans to finish writing the middle of our story, before writing the end- including what happens to our villain. In addition to this, we will be starting to learn how to read back, edit and improve our writing.

What can you do at home?

- Reading
- Spelling Group: practise your spelling words for this week- c (s) race, ice, cell, city, fancy, lace, space, circle, circus, rice.
- Common Exception Words: Have a go at our ‘a’ common exception words- a, are, ask (year 1) after, again, any (year 2).
- Have a go at another one of the six activities.

Also this week

Also this week, in PE, we will be continuing to improve our shooting skills and beginning to follow the basic rules of matches. In our OAA session, we will enjoy children helping each other to access the different information boards and find them located in different places. In RE, we will be thinking about what we are thankful for in our World and will be linking this to our Harvest Festival that is coming up next week. In Dimensions, we will be creating our own music instruments by using things we can find outside and then once made, we will be using these instruments to create our own jingles. Our attendance last week was 96.7%. We hope you all have a lovely week.

Miss Ive, Mrs. Smee and Mrs. Carter
